

VERTIVAC™

ACCESSORY KIT FOR CLEANING AT HEIGHT

The VertiVac ultra-lightweight height cleaning kit has been designed to ensure maximum efficiency and versatility in cleaning and maintenance operations in industrial environments. Made from conductive and advanced carbon fiber materials, this kit is exceptionally lightweight yet durable, helping operators clean pipes, walls, ceilings, and elevated flat surfaces with minimal effort.

Ideal for cleaning and removing dust, debris, and materials, including combustible ones, it allows for safe operations at height without the need for ladders or lifting equipment.
