DEPURECO®
INDUSTRIAL VACUUMS

VertiDex is an ultra-light, ATEX Category 2D certified overhead cleaning kit, designed to ensure maximum safety and versatility when vacuuming in potentially explosive environments. Built with conductive and advanced carbon fiber materials, this kit is exceptionally lightweight yet strong, helping operators clean pipes, walls, ceilings, and elevated flat surfaces with minimal effort.

Ideal for cleaning and removing dust, residues, and materials, it enables safe operations in elevated areas, without the need for ladders or lifting equipment.

Save time on cleaning

Easily reach high spots

Safe for operators
